

Your face muscles needs your attention too

You know exercise helps keeps your body muscles toned, looking and feeling young. When you're exercising, you can actually feel the muscles contracting and if you keep it up for any length of time, the muscles become firmer, plumped up and more compact. The same physics apply to your facial muscles as well!

Technically, there are 24 important facial muscles attached directly below the skins surface. As we age, these muscles become weaker and tend to drag the skin down, making it more difficult for the facial skin covering them to remain elastic. The result is facial wrinkling, along with deep creases, muscle atrophy that cause sagging and eye bags.

TUA VISO is your solution to the problem. TUA VISO is a FDA-approved, patented, easy-to-use **Facial Exerciser designed and manufactured in Italy**. It will literally reverse the ageing process of your face by helping to firm, tone and lift your delicate face and neck muscles. By exercising the facial muscles, you can lift & firm your face and reduce wrinkles & sagging naturally **to look younger in only 2 weeks!**

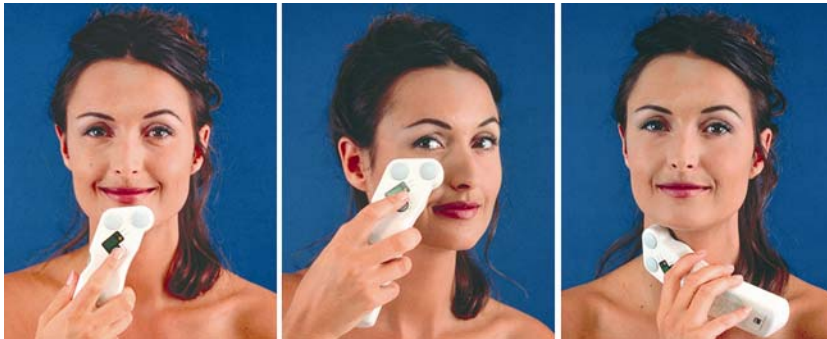

The way to look younger naturally

Using electro-stimulation specially studied for the face's delicate muscle, cells are stimulated into action absorbing more and more of the energy causing the muscles of the face to become progressively stronger and healthier. The pulses will stretch the over-contracted muscles easing the tension and smoothing the skin. Where muscles are excessively relaxed, such as under the eyelids or under the chin, the pulses will selectively contract each muscle and tighten sagging skin.

You can actually feel it working as **muscles contracting in a synchronised rhythm** if placed at the perfect point of the face. TUA VISO will work on facial muscle that you did not even know you had.

TUA VISO promises to

- 1. Prevent and correct loss of facial muscular and skin tone, tightening loose skins**
- 2. Prevent and reduce wrinkles, fine lines and eye bags**
- 3. Shape, firm and lift the face and neck**
- 4. Minimize excess facial fats and double chins**
- 5. Improve the nutrition of the skin to encourage detoxification, cell replacement, collagen production and better overall appearance**

TUA VISO is tested and clinically proven

An independent clinical trial conducted at Bologna University, has shown visible facial lift and redefinition after just 10 days of use with TUA VISO!

TUA VISO is safe and is in conformity with the most stringent international standards and is covered by quality and safety marks. The unit is very handy and powered by a normal 9V replaceable battery. Thanks to two electrodes covered with soft sponge, it makes locating the precise stimulation points of the single muscle groups simple and fast. Unlike the machines used in beauty parlors, no conducting gels or creams are required: a tank to be filled with tap water automatically wets the electrode cups. Their use in the home permits a regular and even enjoyable practice of “skin training” that promises to give lasting youthfulness to the face.

This facial exerciser will help **banish your wrinkles, crow’s feet, forehead creases & double chins and visibly lifts, tones and tightens**, making you look years younger naturally, representing a major alternative for those who cannot or do not want a surgical face lifting. **It is easy and effortless and it is not just for women.**

Get TUA VISO at the May special promotional price...limited to the first 100 customers only!

Beauty Impress is the exclusive distributor for TUA VISO in Malaysia. Interested parties can call 03-2287 2522 for a free trial at our showroom 51-2 The Boulevard Mid Valley City, Lingkaran Syed Putra 59200 or visit <http://www.BeautyImpress.com> for more information.

Join us at our workshop on 19 May to get a free trial and learn more about TUA VISO. First 50 registered participants will received a mystery gift. Call us now to register you free seat.
