Looking Young

TUA Viso is an electronic unit for facial gymnastics that helps exercise facial muscles which are connected directly to the skin, making them more toned and lifting the lineaments of the face, thus helping smooth wrinkles. Waves induce precise muscular exercise without causing pain, even at high intensity. It also encourages a firmer face and neck, lifts cheeks, reduces wrinkles and double chins and eliminates bags under the eyes. Tua Viso is available at the Beauty Impress Mid Valley showroom office and other leading pharmacies and retailers, including Caring, Vitacare, Healthcare, Constant, Revive, Maycare, Pinañg Medical Supplies, Alpro, ITP and A Cut Above. Call 03-2287 2522.
